Quick Guide
My Provision - ITR App

This app uses the Industry Training Register (ITR) enrolment data to provide a picture of who is enrolling in industry training and what they are enrolled in.

It shows detailed information for an individual organisation that submits data to the ITR. The detailed information is limited to authorised people within that organisation.

The information can be filtered by a range of filters, including reporting year, learner type and programme type. Information is shown by the number of learners, volume of delivery (STMs) and value of delivery (dollars GST exclusive).
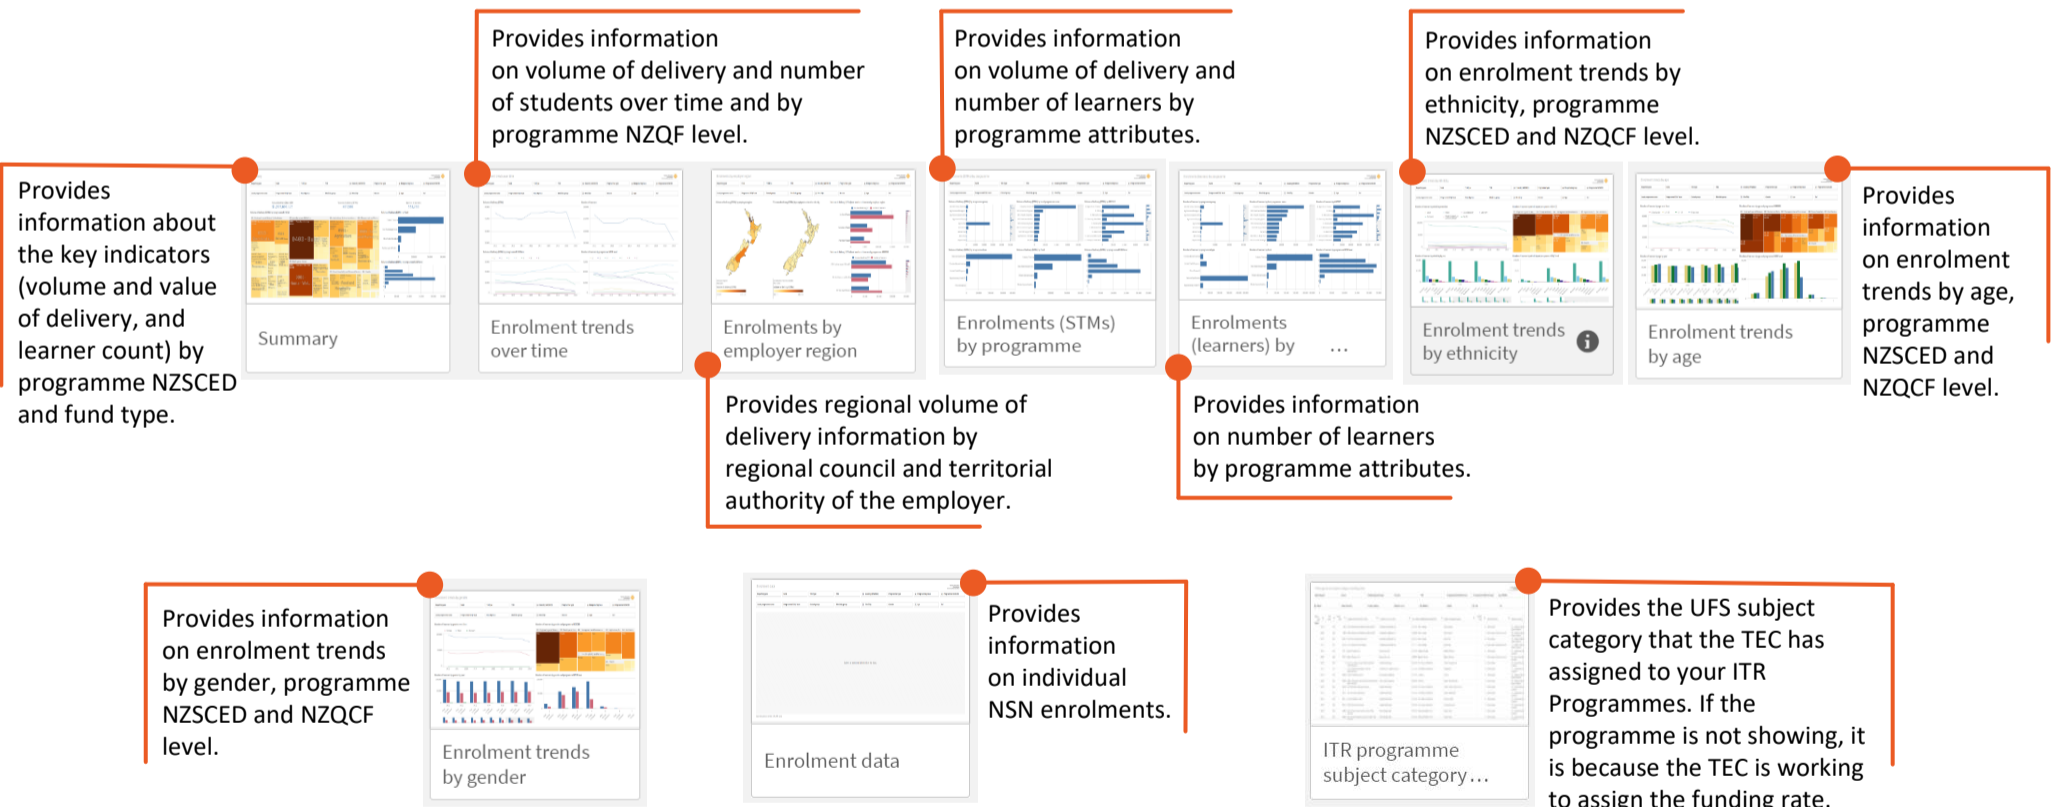

Examples of what you can discover

- Trends in enrolments.
- Demographics of learners.
- The subject areas (NZSCED) in which learners are enrolled.
- Regions in which the learners are enrolled.

Things to note

- Enrolment data is from 2011 onwards.
- From 2023 onwards, only enrolment data with "Assessment and verification" and "Work-based" modes of delivery are included, other modes of delivery data can be found in the My Provision - UFS app.
- If a learner has two or more ethnicities identified, they will be counted in each ethnicity. This means the total count by individual ethnicity may be greater than the total number of learners shown.
- Programme NZSCED, Age band, Programme group and Industry (ANZSIC) make use of the hierarchy: selecting one makes available the next level of the hierarchy.
- The data reflects the data in the ITR as at the end of the previous day.
- You can pan (traverse) and zoom in and out of the maps used in this app.

Information provided by each sheet

Provides information about the key indicators (volume and value of delivery, and learner count) by programme NZSCED and fund type.

Provides information on volume of delivery and number of students over time and by programme NZQF level.

Provides information on volume of delivery and number of learners by programme attributes.

Provides information on enrolment trends by ethnicity, programme NZSCED and NZQCF level.

Provides information on enrolment trends by age, programme NZSCED and NZQCF level.

Summary

Enrolment trends over time

Enrolments by employer region

Enrolments (STMs) by programme

Enrolments (learners) by …

Enrolment trends by ethnicity

Enrolment trends by age

Provides regional volume of delivery information by regional council and territorial authority of the employer.

Provides information on number of learners by programme attributes.

Provides information on enrolment trends by gender, programme NZSCED and NZQCF level.

Enrolment trends by gender

Enrolment data

Provides information on individual NSN enrolments.

ITR programme subject category …

Provides the UFS subject category that the TEC has assigned to your ITR Programmes. If the programme is not showing, it is because the TEC is working to assign the funding rate.

Data Definitions

Take a look at the data definitions sheet in the app for more information on the following fields:

- Age
- ANZSIC
- Ethnicity
- Region
- Mode of delivery

- Fund type
- Learner type
- Local programme name
- Programme NZSCED
- Subject category

- NZQCF level
- Reporting year
- Territorial Authority
- Programme type

- Value of delivery (dollars)
- Value of delivery (STMs)
- Programme group
- Number of learners
